RE: FCC Appeal of SLD Denial of Appeal
CC Docket No. 02-6

Name of Entity:

Approach Learning and Assessment Centers (158862)

SLD Action Being Appealed:

Administrator's Decision on Appeal – Funding Year 2006-2007
Dated March 26, 2007

471 Application Involved: #506121
(FRNs 1391000, 1391002, 1466639)

Case for Appeal

During a Selective Review process, an Information Request Checklist was provided to submit information to the SLD. On the checklist was a section for "Request for Proposal (RFP)". In error, we included our "Information Packet" in this section. In past Selective Reviews, we have been asked to provide all correspondence with potential bidders. In this Selective Review, there was no section for such information, and this would have been the appropriate place to include the "Information Packet." However, this Information Packet is not an RFP. This is an Information Packet given out to each provider who requests it, as noted on the 470, Block 2, No. 11 "Service or Function." This matter was a misunderstanding on our part in compiling the requested information for the SLD's Selective Review.

We request that the funding for FRNs 1391000, 1391002, and 1466639 be approved.

Respectfully submitted,

Donald A. Verleur II
Chief Executive Officer
